Objective

Front-End Developer with a strong foundation in HTML5, CSS3, JavaScript, currently learning React, seeking to leverage my technical skills and collaborative experience in a dynamic and innovative environment.

Skills

- Front-End Development: Proficient in HTML5, CSS3, JavaScript, and Bootstrap, with a focus on creating responsive and user-friendly web interfaces.
- ReactJS: Familiarity with ReactJS.
- Cross-Functional Collaboration: Proven ability to work effectively with diverse teams, both in-person and remotely.
- Problem-Solving: Excellent analytical abilities, adept at identifying and resolving web development challenges.
- Communication: Strong communicator, capable of conveying complex technical concepts clearly to non-technical stakeholders.
